## THE NEW AND IMPROVED FISH FRY!!

As part of an effort to streamline Academy fundraising, the monthly fish fry has been re-evaluated and modified to meet the needs of diners during a pandemic. We are now rivaling Chick-fil-A™ with the new and improved **Drive-Thru Fish Fry**.

New technology has been procured and programmed to handle orders, payments, and preparation with lightning speed! Additionally, advertising went out into the surrounding neighborhoods, reaching individuals who, though living in the area, were never aware of the monthly fish-fry.

All of that, combined, led to a record turnout last Friday of 117 cars (only seven which belonged to members), gross receipts totaling \$2680, and net receipts totaling \$1700. The kitchen ran out of cod and German potato salad within the first hour!

There has been a small team of dedicated volunteers, not all of whom are Academy parents or students, making this progress. **BUT MORE HELP IS DESPERATELY NEEDED!**

All of you benefit from the efforts of the fundraisers. Please consider volunteering one Friday a month, from 5-7 pm to help keep the Academy thriving!

Contact John Bender for details.

## OUTDOOR RECESS: WINTER GUIDELINES

If the recent snowfall is any indication, winter is on its way to southeast Wisconsin. Now is the time for a review of the outdoor recess winter guidelines.

At PLA, we recognize the value of mid-day recess and time spent outdoors. Therefore, children will be sent outside to play during their recess period, if appropriately attired, unless the wind chill temperature is 0° F or below.

Appropriate winter attire includes snow pants, hats, mittens or gloves, and snow boots. Any student without appropriate winter attire will be kept indoors for the recess period.

## ON THE CLASSICAL BOOKSHELF...

From "The Lost Tools of Learning," by Dorothy Sayers.

"For we let our young men and women go out unarmed, in a day when armor was never so necessary. By teaching them all to read, we have left them at the mercy of the printed word. By the invention of the film and the radio, we have made certain that no aversion to reading shall secure them from the incessant battery of words, words, words. They do not know what the words mean; they do not know how to ward them off or blunt their edge or fling them back; they are a prey to words in their emotions instead of being the masters of them in their intellects. We who were scandalized in 1940 when men were sent to fight armored tanks with rifles, are not scandalized when young men and women are sent into the world to fight massed propaganda with a smattering of 'subject'; and when whole classes and whole nations become hypnotized by the arts of the spell binder, we have the impudence to be astonished. We dole out lip-service to the importance of education...we postpone the school-leaving age, and plan to build bigger and better schools; the teachers slave conscientiously in and out of school hours; and yet...all this devoted effort is largely frustrated, because we have lost the tools of learning, and in their absence can only make a botched and piecemeal job of it."
